

Plan B

Classroom Exercise - Model Optimist

Print out Opti on thickest A4 paper your school printer can take.

You will need;

1. Scissors
2. Double sided tape
3. Satay Stick
4. Colouring in with pencils, felt tips, paint. If you're going to put in the sea or pool then something that is water resistant is a good idea.

Could be making and decorating competition.

Then watch them sail and race.
